

JAYBRAKE
BY HORSHEL MOTORSPORTS

Defender™

ROADLOK®
Locking
System

Jaybrake's new Defender™ Roadlok® is the only motorcycle locking system on the market today that will not cause damage to your Harley® if you forget to unlock it before trying to ride and also allows you to choose between your stock caliper or a J-Series Jaybrake caliper.

Our bracket mounts directly to the lower leg mounting tabs and your caliper simply mounts to the bracket. The Defender™ has versions to fit almost all Harleys® 1984 and up. Our unique locking system is available in polish clear anodize, black anodize, and chrome.

Polish or Anodize MSRP: \$199.95

Made in U.S.A.
