J-FL forward controls

ISO 9001 : 2000 CERTIFIED

The new J-FL forward controls are designed to mount to FLH touring models. These controls will meet the needs for everyone who likes the feel and mobility of forward controls, but demand the luxury of their bagger. Machined from a combination of steel and billet aluminum these new controls utilize existing H.D. mounting and pivot points as well as the stock master cylinder. The J-FL forward controls can be mounted to your touring bike with or without the use of the crash bar.

Available in Chrome or Black Anodize
MSRP: \$499.95

Made in U.S.A.
